*"People assume working with lice may not possibly be fun but the people we meet and work with makes this job more enjoyable. I feel blessed to have had this opportunity to meet everyone in our team who has impacted my life in a positive way. It has ultimately helped me to grow professionally and being promoted to Lead Technician is that type of reward and blessing. Also, working at Hair Fairies and becoming a head lice specialist, I am better equipped and ready to deal with lice for my future family"*

*"Helping to educate and nurture families and individuals with Head Lice is rewarding at Hair Fairies. I have seen how this fundamental ethic has helped us as a professional team better to operate and become valuable specialists in our line of work. Furthermore, the consistent barrage of support, respect, and acknowledgement of our work within the smiles of our little clientele and Hair Fairies colleagues has made this work experience much more enjoyable and beneficial. Overall, I'm all smiles since we came here for the education and stayed for the treatment, employees and clients' alike ☺"*

I love knowing that we can provide a calm and child-friendly environment for frantic families in need of delousing and a break from their (sometimes fruitless) at-home efforts. It's nice!"*

*"I love my job! My back round is in esthetics and biology. You would think, that is perfect for dealing with Head Lice!! Except...it's not! Nothing can prepare you for this career. But what a wonderful learning experience this has been. Prior to my employment I worked in a high-end retail industry filled with vanity and greed. I use to work in suits and heels everyday to now wearing scrubs!! This job has been personally fulfilling and humbling. I wouldn't change a thing!"*
